Jefferson 52' Pilothouse SE

JEFFERSON YACHTS, INC.
The New Standard of Excellence

Style, Comfort, Safety

Relax in the spacious great room, curl up in the master stateroom before the flatscreen TV or chart a course on the Portuguese bridge in the 52' Pilothouse Special Edition.

Every space in this popular passagemaker is designed with style, comfort and safety in mind. Inside, the pilothouse features solid teak plank flooring and elegant, yet easy to maintain, satin teak wall finishes. The centerline master stateroom is a study in comfort.

It features a flat screen TV and washer/dryer standard. In addition, the versatile master bath utilizes attractive Shoji panel doors to separate the head, vanity and shower. Forward stateroom accommodations include full island centerline berth, TV and private entrance to a head with separate shower area.

The helm station offers plenty of space for an attractive and efficient electronics layout, which includes Jefferson's SE standard package of radar, plotter, gps, depthfinder, Sum log and two VHF's.

From the lower helm station, an exit aft accesses a teak staircase that leads to the upper deck and flybridge. Here, the crew and guests enjoy sunning or partaking of refreshments found in the standard wet bar. An optional dinghy davit storage area is located beyond the wrap-around rail system.

The comfortable, raised flybridge helm with generous, L-lounge seating provides "signature" panoramic views forward. The additional "living" space of the roomy pilothouse invites guests to join the captain at the helm.

From the huge pilothouse, step down into the enormous galley and saloon. This spacious great room boasts lounges both port and starboard and a large, smart galley outfitted with the finest appliances.

Jefferson Yachts has built its rich 22-year heritage on painstaking attention to detail, efficiency and affordable luxury.
