

**M**arlago's FS35 CC combines performance and fishability with a forward cuddy cabin that allows for extended stays aboard. Marlago builds the boat using Nida Core Honeycomb coring in order to enhance its strength and reduce overall weight. This results in quicker planing times and enhanced overall performance. The FS35's large cockpit features insulated fish boxes, gun-wale rod storage, a transom bait center with saltwater and freshwater sinks, and a livewell. The console houses a head with a macerator pumpout, a sink, a vanity, and a shower. The forward cuddy cabin features a dinette; for overnight trips it will sleep two comfortably in a V-berth. *Jefferson Yachts; (812) 282-8111; jeffersonyachts.com*

## MARLAGO FS35 CC
